

FACIAL ECZEMA RISK AND INCIDENCE MONITOR NO 4

5-Feb-10

Spores have risen in some areas from the recent wet, humid weather. Reporoa has reported a count of 300,000 with Monovale (Cambridge area) reporting 380,000 and the Wairarapa 282,000. These areas could get much worse if the desired weather for fungus growth continues. Farmers should have started preventative zinc treatment in stock by now as it does not give immediate protection.

Please send counts for the report by 1pm Fridays. Fax 07 850 0770. E-mail fe@gribbles.co.nz
Report compiled by Gribbles Hamilton, a division of Gribbles Veterinary Pathology NZ.

DISTRICT SPORE COUNTS AS AT

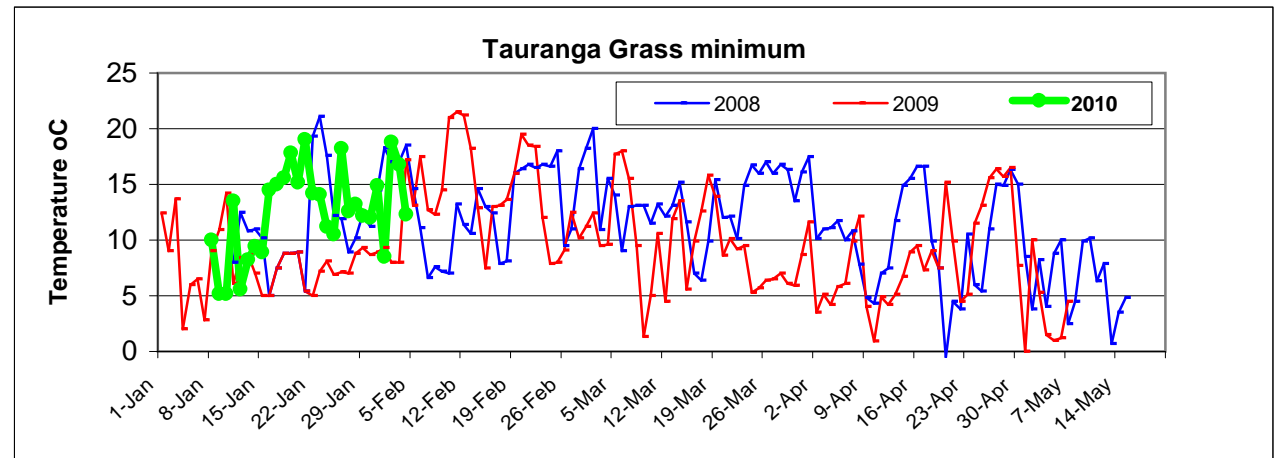

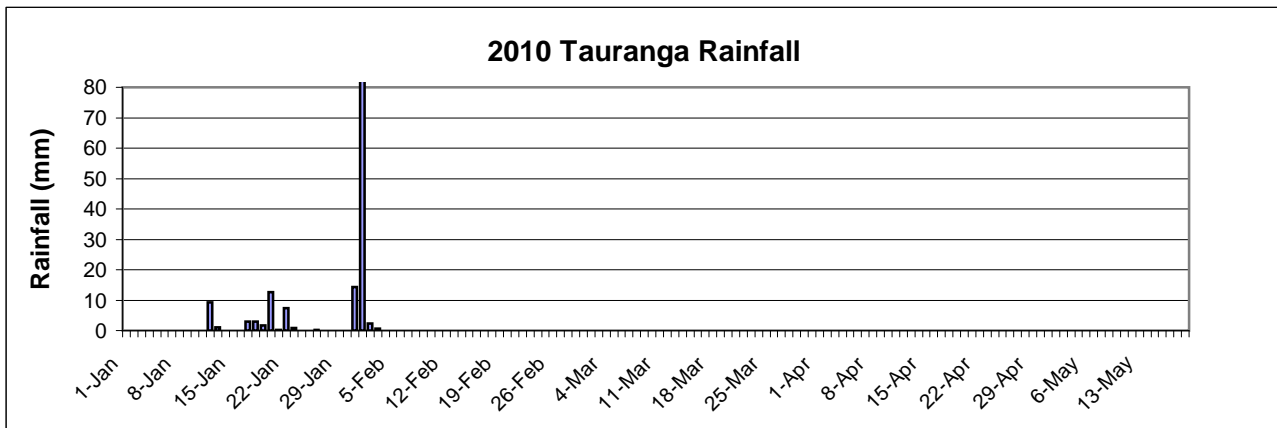

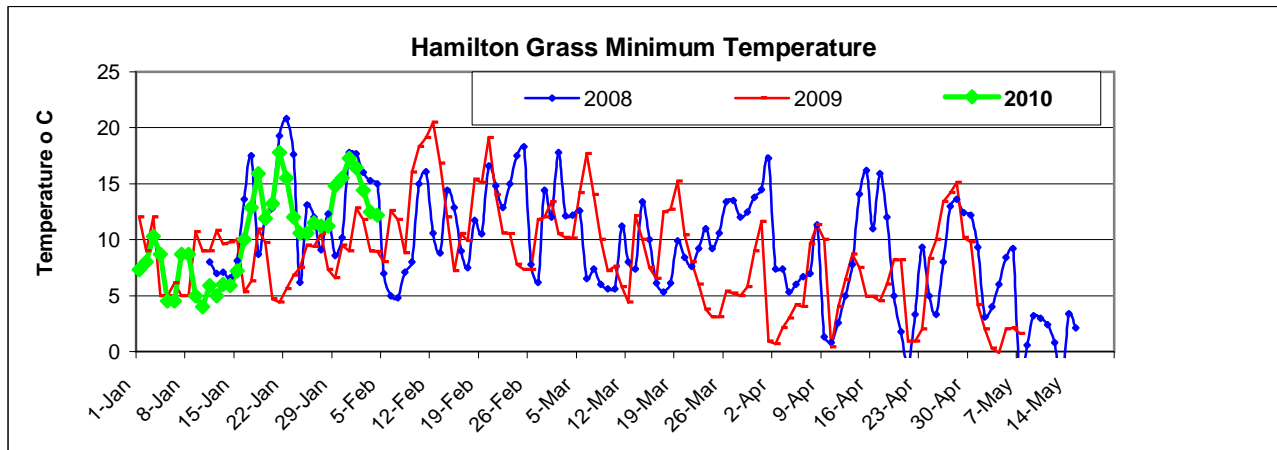

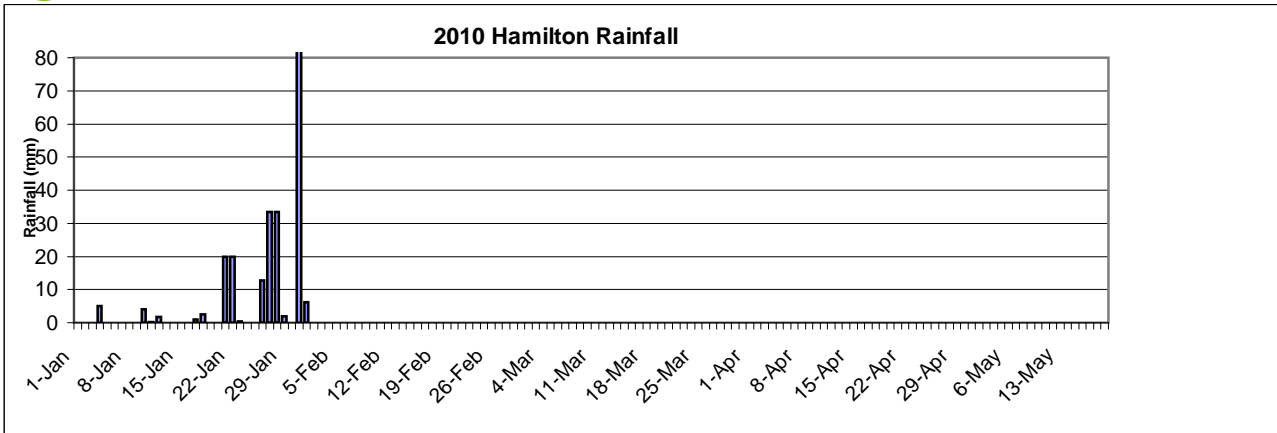

5-Feb-10

Region	District	No of Sites Monitored	Counts for week '000's/g			FE Risk *
			Ave	Lowest	Highest	
Northland	Kaitaia	3	2	0	5	Low
	Kaikohe/BOIs.	3	7	5	10	Low
	Whangarei	3	2	0	5	Low
	Dargaville/Ruawai	3	0	0	0	Low
	Maungaturoto	2	13	10	15	Low
	Rodney	3	15	0	45	Low
